Practices	I know	I used
Microservices Architecture		
Autonomous and Cohesive Services		
Automated Infrastructure Configuration		
Automated Infrastructure Provision		
Automated Scalability		
Continuous Infrastructure Provisioning		
On Demand Provisioning		
Infrastructure-as-Code		
Virtualization		
Containerization		
Cloud Computing		
Source Code Version Control		
Automated Build		
Tech Talks		
Daily Meetings		
Discussion Groups		
Round tables		
Knowledge Sharing		
Quality control		
Automated Rollback		
Disaster Recovery		
Continuous Development		
Iterative Development		
Collaborative Development		
Pair Programming		
Job Rotation		
Continuous Integration		

Continuous Testing		
Automated Tests		
Smoke Tests		
Regression Tests		
Unitary Tests		
Acceptance Tests		
Static Code Analysis		
Sanity Tests		
Continuous Release Planning		
Continuous Deployment		
Continuous Delivery		
Continuous Monitoring		
Continuous Feedback		
Continuous Improvement		
Retrospectives		
Requirements Management		
Blameless Postmortem		
Continuous Experimentation and Learning		
Showcase Days		
Hackathon		
Peer Review
